

Example Data Blocks

The structure of a datablock

Example paging call

SOH	'1'	STX	'1'	US	12345	RS	'2'	US	"Hello, World"	ETX	0xXX
-----	-----	-----	-----	----	-------	----	-----	----	----------------	-----	------

Call to Pager	Call Address	Pager #12345	Display Message	Text for Display
------------------	-----------------	-----------------	--------------------	---------------------

Same call, different block layout

SOH	'1'	STX	'2'	US	"Hello, World"	RS	'1'	US	12345	ETX	0xXX
-----	-----	-----	-----	----	----------------	----	-----	----	-------	-----	------

Call to Pager	Display Message	Text for Display	Call Address	Pager #12345
------------------	--------------------	---------------------	-----------------	-----------------

Example status request

SOH	'3'	STX	'1'	US	12345	RS	'2'	US	"Hello, World"	ETX	0xXX
-----	-----	-----	-----	----	-------	----	-----	----	----------------	-----	------

Status Enquiry	Call Address	Pager #12345	Display Message	Text for Display
-------------------	-----------------	-----------------	--------------------	---------------------

Example status information

SOH	'2'	STX	'1'	US	12345	RS	'2'	US	"Hello, World"	RS	'2'	US	ETX	0xXX
-----	-----	-----	-----	----	-------	----	-----	----	----------------	----	-----	----	-----	------

Status Information	Call Address	Pager #12345	Display Message	Text for Display	Call Status	Call is Queued
-----------------------	-----------------	-----------------	--------------------	---------------------	----------------	-------------------
